

**ADAM BOMSTAD, LEED A.P.**

---

**CONSTRUCTION ENGINEER**

As Construction Engineer, Adam will provide the day-to-day leadership for the entire construction team and is the direct contact with the Owner's staff. Adam will prepare the project schedules and take-off estimates, process shop drawings and secure city permits. Adam will attend all pre-construction and construction coordination meetings and is responsible for Timco Construction's scheduling of manpower on a daily basis.

Adam brings to the team a Bachelor Degree in Construction Management, a minor in Business Administration and heads our LEED and Green Construction initiatives.
