

ERIC S. KOBESKA

PROJECT MANAGER

Eric provides day-to-day leadership for the entire construction team and is the direct contact with the Owner's staff. Eric will prepare the project budgets and schedules as well as attend all preconstruction and construction coordination meetings, working hand-in-hand with jobsite superintendents to ensure projects are completed on time and under budget.

Eric brings to Timco a Bachelor degree in Business Administration with a concentration in Construction Management as well as previous experience with an excavating company. Eric's attention to detail and complex problem solving skills are a great asset to the Timco Team.
